

Save Our Schools

Traditional, new lyrics by Susan Ohanian

Lost school funding what'll I do?
Lost school funding what'll I do?
Books are old computers too
What will we do for children

Cho

Save save save our schools
Save save save our schools
Save save save our schools
Save them for our children

Started a new school called it WOO
Steve Orel and the students whose
Opportunities grew and grew
A world that's new for children

Cho

Instrument solo

Cho

High stakes testing they pushed through
Hurting students teachers too
Let our natural gifts show through
That's what we'll do

Cho

Gotta join hands, both me and you
Find my buddies, kids join too
Save the future of our schools
That's what we'll do for children
