

Someone Taught Me

C
Long ago I couldn't read then someone taught me

G7
Or that one and two made three then someone taught me

C
Tell a flower from a tree, or the mountain from the sea

F **C** **Am**
How I ever could succeed, then someone taught me

G7 **C**
There was a time I couldn't sing then someone taught me

See the changes life would bring then someone taught me

Why a feather builds a wing, what makes a man a king

When I didn't know a thing then someone taught me

When I teetered on the brink then someone taught me

Felt I was the weakest link then someone taught me

When my hopes began to sink, in the time it takes to blink

Every lesson helped me think then someone taught me

Once I couldn't tell the time then someone taught me

Or write words that flow in rhyme then someone taught me

Know a dollar from a dime find a tree that I could climb

Watch the future turn out fine then someone taught me

Be a teacher be a friend, it must matter in the end

Grow to be just what I am because you taught me
